

Registry of Lightning Owners

(Corrected to February 1, 1950)

In order to conserve on space (and money) in the Year Book the numerical listing has this year been revised.

You will note that the address of the owner is omitted. This you will find under the alphabetical listing. Fleet affiliation is denoted by the figure in parenthesis following the owner's name. If the name is followed by (U), this signifies the owner is unaffiliated.

The Executive Secretary, Bank of South Haven Bldg., South Haven, Michigan should be advised promptly of all changes in owners' names, addresses, sailing locations, fleet affiliations and boat names. Members are urged to obtain the names and addresses of new Lightning sailors in their neighborhoods and report them to the Executive Secretary. In this way, missing owners may be located.

Where a boat is listed as owned by a "builder" or "dealer," it means that the Association office has the name of the builder or dealer who sold the boat, but the name of the purchaser has not been ascertained. When a builder's or dealer's name is used, it means that the boat is actually owned and probably is in use by that individual or concern.

We have tried hard to make this listing as accurate as possible but errors do seem to occur. If you find we have listed your boat, name or Fleet incorrectly please let us know so we may correct our records.

Where boat number is followed by an asterisk (*), it means that there is an approved measurement certificate on file for this boat. All boats not so marked do not have measurement certificates on file.
