# THE NEW STANDARD IN ONE-DESIGN PERFORMANCE. FISHER SAILS.

*Greg Fisher*

"It may be a new name and a new logo, yet it's the same sailmakers building the same superior sails at the original location. At FISHER SAILS (formerly Shore Sails Midwest), there is no compromise on excellence. We build the world's fastest one-design sails, and still provide the personal service one-design sailors deserve. In fact, Fisher designs won the National Championships in 12 different one-design classes during 1987.

Armed with the knowledge gained from working in these other one-design classes and combined with our experience in *Lightnings*, we're confident our new *Lightning* design will become the new standard in the class. Greg Fisher and his family have been active in the *Lightning* Class for more than 30 years.

Let FISHER SAILS put you in front of the fleet. Give us a call. We can help you win your share of the silver."
